

Tobermore

fusion

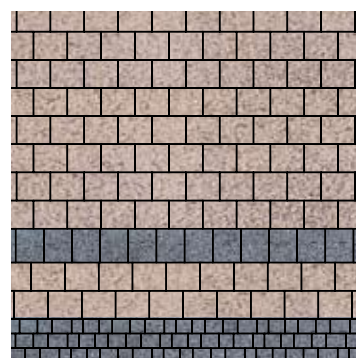

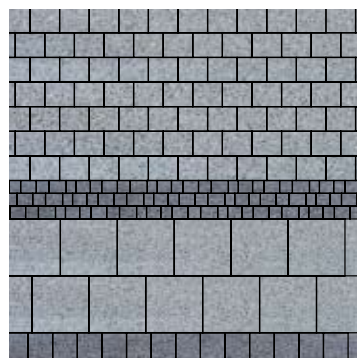

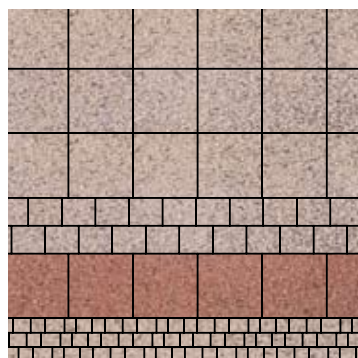

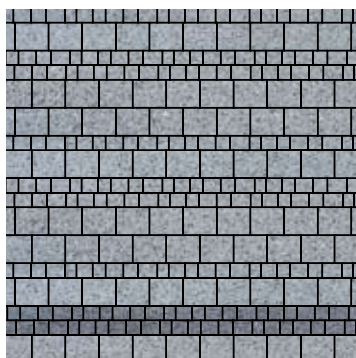

Tobermore's integrated range of granite paving products

Sienna block paving, **Mayfair Setts** and **Mayfair Flags** are combined to create striking visual effects through colour and laying pattern. Premium exposed granite aggregates make this range perfect for both traditional and contemporary projects.

- Saving up to 25% on other market alternatives
- Large colour range
- Permeable option available
- Matching kerbs

example laying patterns

An endless array of pattern options are available by interchanging the size and colour. Here are a few of our most popular Fusion design options.

Fusion emulates traditional natural granite. The coarse textured surface exposes the sparkling granite aggregates to provide a distinctive appearance similar to natural granite.

All elements within the Fusion range are 60mm deep therefore making it easy for the contractor to install.

Important note

Tobermore recommend that you separate product groups using contrasting bands of colour as each product is manufactured separately and may have slight variations in colour.

block paving specifications

Manufactured to	BS EN 1338:2003
Performance criteria	Strength > 3.6MPa or 250 N/mm
Product type	Concrete paving block
Installed to	BS EN 7533-3:2005
Applications	Residential and commercial

Tobermore operate an Integrated Management System and is an accredited ISO9001:2008 and ISO14001:2004 company.

flag specifications

Manufactured to	BS EN 1339:2003
Product type	Concrete paving flag
Installed to	BS EN 7533-4:2006
Applications	Residential and commercial

Tobermore operate an Integrated Management System and is an accredited ISO9001:2008 and ISO14001:2004 company.

colours

using the fusion range is very easy

- 1 Simply choose one of the patterns from those suggested or alternatively you can create your own pattern.
- 2 Select the colour and size of each paving product you have chosen.
- 3 Select a matching kerb that complements your paving.
