

# mourne

## The cobble sett paving system

This range captures the unique appearance of country stone cobbles, lending a distinctive period feel to your home. The rounded corners of Mourne give the optical illusion that the product has a rounded surface. In reality, the surface area is smooth, making it ideal for driveways, paths and patios.

Modular sizes allow you to create simple, yet effective patterns and Mourne circular can be used for patios or other design features. Mourne will transform your home, giving it that extra touch of style and elegance.
