Mourne has the distinctive and elegant character of traditional stone cobbles, adding a unique style and natural authenticity to any landscaping project. Mourne's rounded corners create the optical illusion of a rounded surface profile, yet it produces an overall flat surface.

Mourne is the perfect complement in areas where the surrounding architecture demands a surface finish with vintage character. A cost-effective alternative to original cobbled stones, Mourne is equally at home in domestic applications or conservation schemes.

Mourne Circular System

Mourne Circular is a specially designed system for easy creation of circular patterns. See page 41 for laying guidelines.
