Tobermore have sourced a superb range of Granite Setts, which have strong colours combined with a unique texture and finish. The design options are immense and they enable designers the opportunity to add richness and character to their scheme, while ensuring harmony with the surrounding environment.

At home in both modern and traditional settings Pietra Granite Setts are characterized by their style, durability and natural beauty.

They can blend with other products such as Tegula or provide a contrast with the other granite products in the Pietra range. Setts are often used to create interesting bands or borders within a scheme or they can create patterns in pathways, driveways and roads.

All Pietra setts are supplied in a hand dressed finish. This finish leaves the product in its natural state providing the unique aesthetic appeal that is widely required from natural stone products.

Tobermore operate an Integrated Management System and is an accredited ISO9001:2000 and ISO14001:2004 company.

colours

Gold

Buff

Rosso

Natural

Nero

Important information for Pietra Granite

All natural stone products are porous and are subject to variation in colour, density, dimension and quantity. These inherent variations cannot be controlled nor the precise shade of the stone guaranteed. Tobermore's selection process ensures your natural stone products are as uniform in size and thickness as possible. Because these are natural materials, the size and thickness may vary.

This can normally be allowed for when they are installed. Consult with an experienced laying contractor before installing these products.
