Important information for Pietra Sandstone Flags & Circles

All natural stone products are porous and are subject to variation in colour, density, dimension and quantity. These inherent variations cannot be controlled nor the precise shade of the stone guaranteed. Tobermore's selection process ensures your natural stone products are as uniform in size and thickness as possible. Because these are natural materials, the size and thickness may vary.

This can normally be allowed for when they are installed. Consult with an experienced laying contractor before installing these products.

Please note that sealing the Pietra Sandstone Flags can help reduce staining from coffee, wine and efflorescence. Tobermore have sealing products available if required. Do not use acid to clean this product. Contact your local sales office for further information.
