

Shannon has been designed to provide maximum performance in areas where smoothness and low maintenance are priorities. Shannon's 'pencil' chamfer and narrow joint width both reduce maintenance levels and provide a surface that is ideal for trafficking by wheelchairs, shopping trolleys etc. The elderly and physically impaired may also benefit from the smooth surface finish. Children love it for cycling, skateboarding and general playing.

Shannon's smooth surface makes it particularly suitable for shopping precincts, schools, superstores, public paths and street scenes, where a high volume of prams, wheelchairs and vehicles are anticipated. It has been designed for today's busy lifestyles where low maintenance is a primary consideration.

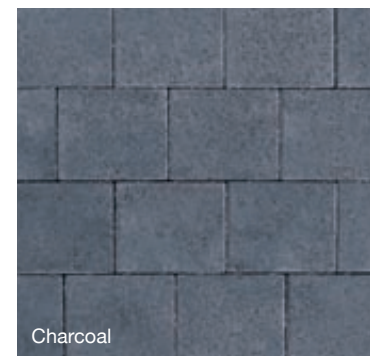

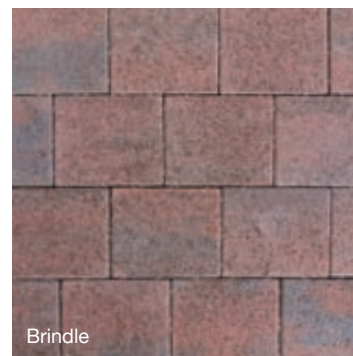

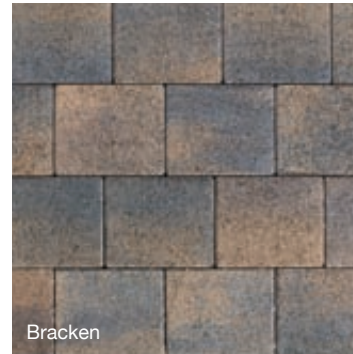

Shannon Duo is now available with both block sizes supplied on one pallet.

## product specifications

<b>Manufactured to</b>	BS EN 1338:2003
