Brighton i360 Ltd. Marks Barfield Architects The Terra Firma Consultancy JT Mackley & Co. Ltd

The Challenge

To provide an attractive landscape solution to accompany the highly anticipated British Airways i360 building.

Robyn Butcher, Landscape Architect at The Terra Firma Consultancy, explained the objectives of the high-profile project and her role within it: *"The design vision for the external landscape was to provide an attractive landscape to accompany the highly anticipated British Airways i360 building and enhance the experience for visitors."*

Robyn noted that due to the contemporary style of the design and build, paving products were the most suitable hard landscaping material for the project.

The modern finish and duo sizes available with Tobermore's Sienna block paving was ideal for creating a contemporary look that was in keeping with the style of the national visitor attraction. We put this forward to Marks Barfield Architects – they were sold on Sienna Duo, resulting in the product being specified.

The Solution

Tobermore Sienna Duo block paving system.

Robyn was involved in the process of sourcing and assessing paving products for Marks Barfield Architects and she was highly impressed with the quality, aesthetics and performance offered by Tobermore's Sienna Duo block paving.

She explained: *"Competitor paving products had been put forward for the project but they did not meet the desired aesthetics for the landscape. A product with a modern appearance was needed to complement the structure which was crafted with a futuristic feel. The modern finish and duo sizes available with Tobermore's Sienna block paving was ideal for creating a contemporary look that was in keeping with the style of the national visitor attraction. We put this forward to Marks Barfield Architects - they were sold on Sienna Duo, resulting in the product being specified."*

The attraction was completed in August 2016 and was officially opened by His Royal Highness The Duke of Edinburgh during a special ceremony in October 2016, during which HRH took a flight on the observation pod before unveiling a plaque and signing a visitor's book.
