British Airways i360

Reaching new heights

The Terra Firma Consultancy provided an informal landscape design advisory service to Marks Barfield Architects, sourcing the most appropriate hard landscaping solution at British Airways i360, the new landmark attraction on Brighton beach.

Marks Barfield Architects chose Tobermore's Sienna Duo – a block paving product with a striking granite aggregate finish that offered the contemporary look desired for the iconic structure.

"Having worked with Tobermore previously, the team was always so attentive with technical guidance; the products are competitively priced and aesthetically pleasing and the vibrant colour range available is stunning."

ROBYN BUTCHER, LANDSCAPE ARCHITECT AT THE TERRA FIRMA CONSULTANCY

Laurel Bank is a charming development of distinguished homes nestled in the peace and tranquillity of Moneyreagh village in County Down. Long-standing Northern Ireland housebuilder, JH Price & Sons, designed the 71 homes to the highest specification and having worked with Tobermore on a regular basis over the last two decades, the developer found that Tobermore had the ideal paving and walling products that would create the warm, elegant style desired at Laurel Bank.

"In addition to the high quality of the products supplied across the building and hard landscaping elements, Tobermore provided an incredibly efficient service. The products were delivered on the date agreed, as always. Things like this mean a lot."

HENRY PRICE, OWNER AT JH PRICE & SONS

Colour Selector: Granite finish paving in modern greys

This is one of a series of posts where we investigate the use of a paving colour range, to inspire you in your own designs.

In this article we look at modern grey paving in a granite finish, and seeing how architects and landscape architects have used their design skills to achieve a variety of effects. All the paving illustrated in this piece is granite finish paving, unless otherwise stated.

Benefits of Granite Finish Paving

Tobermore Granite Finish Paving is an extremely cost effective way to get the look of granite in a long lasting, robust paving product. Where your client needs a granite finish but their budget won't stretch that far, Tobermore Granite Finish Paving can fill the gap.

Manufactured with sparkling granite aggregates, this durable block, slab and plank paving is a popular choice for paved areas in both residential and commercial developments, and it comes with a 25 year guarantee.

[READ THE FULL ARTICLE](#)

- More cost effective than solid granite
- The same attractive, sparkly finish as solid granite
- Wide range of colours available including up to four different greys
- Grey and Silver colours contain not less than 53% of granite aggregate in the hard-wearing surface layer.
- Strength > 3.6MPa and Extremely Low Slip Resistance (>75 USRV)
- Top quality European-style paving made in the UK
